Merritt College: Home of the Black Panthers

_Peralta TV Special:_ A powerful documentary that chronicles the birth of the Black Panther Party at Merritt College during the politically, socially and economically turbulent times of the late 1960's in Oakland. This compelling story about social justice is told through rare interviews with original party members and other key players – who were Merritt students at the time – and features vivid, original artwork from the many Black Panther Party publications as well as rarely seen photos. This not-to-be-missed ground-breaking documentary, which includes exclusive, previously unseen material, is an original Peralta TV production.
