On June 12, 1970, a Black family was attacked by White racists, in the O'Donald Heights Area, causing blood to be spilled for no other reason than the oppression of Black people by this U.S. "racist" government, which is spilling the blood of people of color throughout the whole world. However, this type of incident is not by far the first of its nature. It is a historical fact that Black people here in fascist, imperialist America, have suffered from brutality, torture, and murder by White racists all the days of our lives in this nation of death.

It is important too, that the broad masses of Baltimore and the world; understand clearly why there is such a great need for the Black Panther Party and a revolutionary change here in Babylon. Mrs. Katie Wilson, a widow and her two children live in the 1300 block of Stromeyer Way.

She was told by her daughter Catherine Brown (age 17) that some 15 to 20 White men had jumped on her uncle, Tom. Mrs. Katie rushed to the scene in the 1200 block of Wohler Way Street, bringing her 14 year old son with her. Upon their arrival Mrs. Katie inquired about John, whom the racists had already brutalized. The only response she received was threats, such as you will get the same and etc. She was also pushed about however, Mrs. Katie being a strong woman refused to leave until she had found John the victim that was attacked, and because she refused to leave she was jumped on by these mad barbarians.

One of the racists had a car jack in his hand and swung it at Mrs. Katie with a death swing. But her son, 14 year old William Brown, stepped courageously in front of his mother and received the blow just above the temple which could have very easily killed William Brown, blood began gushing from the head of William. William was taken in by a neighbor. A bottle was thrown at Mrs. Katie, hitting her around the heel, cutting the ligaments in the area around her heel. Thus causing her not to be able to walk, somehow she managed to get to the house where her son was, and blood was still running from his head. William passed out four times before the ambulance arrived.

The arrival of the ambulance would

make one think that at last the brother is going to be taken care of, in the 1200 block of Wohler Way St. but it didn't happen that way, what did take place was that these mad racists arrived on the set only to try and finish killing the brother. I myself am no doctor, however, I do know that when some one is bleeding like hell from the head you don't make the individual

ever they pass, in front of that house These filthy animals have taken their privates out and shook them at our women and daughters. They have also urinated in bottles and thrown the bottles at our sisters walking the streets. How long must this type of harassment you don't make the individual ment continue. Are we as Black men

**FOR TOO LONG WE HAVE ALLOWED MADNESS SUCH AS THIS TO GO ON WITHOUT BEING CHECKED**

get up and walk, whereas you have a litter to carry him on, but the mercenary pig doctor made William walk, they could have cared less about the brother's health.

The fascist pigs, after they fell in on the set, they were only concerned about the protection of the White racists that attacked our Black brother and sister with intention of murdering them. The pigs tried to make the neighbor that let William into his house say that William and his mother forced their way into his house, but he wouldn't go for it, in other words, these pigs did not come to that troubled area to aid the brother and his mother, but to try and give them a case.

The 15 to 20 homosexuals that committed this act made things crystal clear in mind that they were trying to get a race war started in the O'Donald Heights Area. These same mad racists have constantly threatened Black people in that area, our women have been degraded by these dogs when

going to stand by and allow our women to be shamed by White racists without lifting a finger to put an end to this madness, or are we going to fight back?

For too long we have allowed madness such as I have fore stated to go on without being checked, thus allowing the White racists to think that niggers will not defend themselves. At this time I would like to inform the masses of Baltimore and the surrounding area that the Black Panther Party supports the just struggle of Black people in the O'Donald Height Area, wholeheartedly and resolutely. Therefore an attack on Black people, not only in O'Donald Heights but throughout this racist nation, will meet with "Resistance" and our angry cry for vengeance shall be cold and deadly.
