The Denver branch of the Black Panther Party, led by Lauren Watson, fully supported the demands of the Chicano students at Denver's West High School. Resulting that it is of paramount importance for school administrators and curricula to be responsive to the needs of the student body, the Chicano students made the following demands.

1. The West High School must address the lack of bilingual education from elementary school through college, it must be Colorado schools.
2. That the West High School board must be reelected and that teachers teaching methods be returned to the school.
3. That the Chicano Literature be provided in the school library.
4. That teachers become more aware of the social and economic problems of the West High neighborhood.
5. That teachers refuse to report Chicano to join the administration.
6. That class structure be reduced and that teacher teaching methods be introduced in the school.

The demands of the Chicano students were presented to the school administration on Wednesday, March 20, 1969, but the administration merely ignored the demands. On Thursday, March 21, a group of Chicano students walked out of West to protest the control of the administration of Harry L. Shaffer, a social science teacher. The students began a picket outside a school, the students were thrown out of school and were soon joined by approximately 200 more supporters.

The picket lines were called in to suppress the students for the students who favor the Black Caucus for their immediate and future goals.

The Black Caucus was formed out of the frustration of how the jobs of the busdrivers in San Francisco had been jeopardized for the public and the bus-drivers themselves. The arrest of 21 members of the New York Chapter of the Black Panther Party for "conspiracy" signals a growing government repression of the movement in this country. All of us in all segments of the movement must recognize the consequent necessity of working together and supporting one another. The more the left fragment, the more easily these fragments can be isolated and destroyed.

On April 3rd, the 21 Panther members were arrested and charged with conspiring to blow up a number of department stores, 15,000 bullets in the Bronx Botanical Gardens, and a police station, as well as possession of dangerous weapons and explosives. The arrests were made in the early morning hours by squads of armed policemen. The accidental nature of the arrests caused the premature arrest of Lena Powell (Powell was one of the 21 arrested). The child lived three years. This event was not considered new. It was to print by the media.

I am writing this note in hopes that it will inspire at least one of those paper Panthers to get out into the community and do the work of the people.

During my incarceration, I have found that there is a great need for the sisters and brothers to know the true meaning of "Power To The People". Very few of our young brothers and sisters have ever read the ten point program. They are unfamiliar with the Party's purpose. We are looked upon as an all black gang dedicated to destruction. When the brothers in Oakland sat down and put the ten points together that is not what they had in mind. We must educate the community to the correct purpose of the Black Panther Party.

This party is dedicated to seeing that the needs of the people are met. We will do whatever the people deem necessary to attain these basic needs. We will go to jail, we will be murdered, we will be prosecuted and most of all we will live for the people. We are reasonable always to the people. Every action must be understood by the masses. I no longer have any wants, for my desires are my people's. I have no time, because my time belongs to the people. You see, everything belongs to the people. If you find it hard to put into practice, then you have no place in the Vanguard. Everyone is not expected to be able to carry the load but then the rewards are great. The load must be carried whether you do it or not. You must review the three choices you have:

I love my people and because of this love the seventy years that I am facing seems a small price to pay. Land, bread, education, housing, clothing, justice and peace these are my goals.

ATTICA: Nixon and Rockefeller Pulled The Triggers

Attica Prison in New York became the focal point for the exposure of this country's full turn toward fascism. The men that were killed there on September 13, 1971, all knew, in varying degrees, that the state had no concern for their lives.

Rockefeller ordered the massacre with Nixon's full knowledge, backing and approval. However, they miscalculated. They had figured that the people would accept their blatant lies without question or hesitation. But the people neither accepted their lies nor remained silent. They are coming forth to indict Nixon and Rockefeller for their refusal to care, or even pretend to care, at least about those guards who were in the state's employ. It has become increasingly clear that maintenance of the state's repressive machine is the only thing of importance to the Nixons and the Rockefellers.

The relatives and friends of prisoners and guards alike refuse to believe the lies that they were told about the murders of their husbands, sons, brothers and friends. They know that the murders were brutal and unnecessary. Even the wife of a guard who was murdered by the state is reported to have said, "The bullet that killed my husband had Rockefeller's name on it."

In their efforts to cover up the fact that all of the wounds - from high powered rifles, shotguns, revolvers and flame throwers - suffered by guards and prisoners came from the State troopers, they have invaded cemeteries and funeral homes taking bodies back for further autopsies in a desperate attempt to make bullet holes look like non-existent prisoner-sliced throats.

They are desperately trying to make the victims of Attica appear as the criminals and glorify vicious murderers like Nixon and Rockefeller. But the maze of lies and distortions that the state is bringing forth to whitewash their fascist terrorist tactics has fooled no one. If anything, they have further defined our fight. For we know that the humanity and beauty of our brothers at Attica can not be obscured by Rockefeller's commissions and new autopsies. Nor will our will to resist and continue our struggle be thwarted by this latest attempt.

All Power to the People...
The night of Sept 27th a darter was stuck on a car proceeding on the Grand Central Parkway coming from the direction of 50th Street Bridge. The sister lied in the street about 35-40 minutes waiting for an ambulance. This to the fourth person in 5 weeks to be hit and injured to a man cause the tragic accident of the 17 year old Black man, Arthur Williams, on Aug. 22nd. The driver in this particular accident didn’t intend to strike the pedestrian, he was on the street when the man was hit. The accident takes place at 50th St. and Northern Blvd. In this damaging innocent people are still being struck down and seriously injured, because of the neglect of the power structure to respect the needs and desires of others. Waiting 35-40 minutes for an ambulance in the Queens area where 2,000,000 people reside is a clear example that rotten system does not serve the people. We must not allow this genre role in the Black community to continue. It is up to the people to come together as one whole to move and destroy the beast that lives in the heart of this rotten system. Only by exposing the evil defects in the system, we can help ourselves in the fight for liberation and they have already begun acting. It is up to the people to stand up and begin the struggle. We say this, “BLOOD WIL TELL THE TRUTH ABOUT THE PEOPLE” because it is the people who have to live in a world of just stable pride and reality. And to the pigs of the power structure we say this, “TO THE HORSES BROW” because they will wildly drown in your own blood.

AN OPEN LETTER FROM WARREN WELLS

United States imperialism finds itself at the end of its rope and is closer to its doom. Thus, the U.S. monopoly capitalist/landlord, fascist oppression, and national subjugation, and the people. Waiting 35-40 minutes for that is standing in the way of the progress of mankind as a whole. It is UP to the people to meet the needs and desires of the people. Waiting 35-40 minutes for that is standing in the way of the progress of mankind as a whole...

D.C. INTERVIEWED BY UNIV. OF TEXAS NEWSPAPER, THE RAG

Field Marshal Don Cox is one of the few members of the Black Panther Party who have been seen in public in the months since the police stopped going after them. In his words, "The Black Panther Party is still alive and well, and we are still fighting for our rights."

DON: "Things are moving along, and we are still fighting for our rights."

RAG: Have you encountered a lot of personal harassment since you were associated with the Panther Party?

DON: "We have had to endure a lot of personal harassment, but we are still fighting for our rights."
PIGS BUST NINE BLACK PATRIOTS

May 21—Nine members of the Lincoln Park Young Patriots were arrested yesterday after they had attempted to concert the barricade at the Harvest Moon Lounge, 2535 N. Lincoln, to obstruct customers and young people in the neighborhood. Want the Patriots arrived, the barricade immediately called upon the protection of the state. One cop car arrived which tried to mediate the dispute, but it was forced to limp away with a flat tire, leaving no satisfactory leader. The Patriots went out to clear the sidewalk, and the tavern owner locked the door behind them. Appropriately a sign appeared on the tavern’s window: "Temporarily Closed by Order of Young Patriots." Suddenly a lot of cops cars arrived; "You can’t close a tavern," they said. "We don’t lock the door," the Patriots replied.

The cops then ordered the Patriots to clear a path in the side walk. They did. The cops then ordered them to disperse, and they stopped in a nearby doorway. They were then told they were under arrest: "You didn’t move fast enough!" The charge was disorderly conduct, although three juveniles were later released. One woman Patriot who had just been released from the hospital began screaming. She was refused medical attention and taken to women’s lock-up at 11th and State.

To the surprise of Chicago's TV and newspaper, a new alliance was revealed at a recent press conference. The Black Panther Party, the Appalachian whites Young Patriots, and the Puerto Rican Young Lords announced their solidarity. They represent three different ethnic groups and neighborhoods in Chicago.

INTERVIEW WITH CHA CHA JIMENEZ CHAIRMAN --- YOUNG LORDS ORGANIZATION

CHA CHA JIMENEZ ACCUSED OF KIDNAPPING OWN CHILD

The Young Lords have been involved in several high-profile cases, including Cha-Cha Jimenez's arrest on charges of kidnapping his own child.

May 22-Last Thursday the straight press and electronic media played up the arrest of Cha Cha Jimenez, Chairman of the Young Lords Organization, for kidnapping without explaining that the person charged with kidnapping was his own 1-month old daughter, Jaqueline. Fred and the Belmont Boulevard felt so strongly about this case that they wanted to carry the true story of the unusual case of movement harassment.

On Monday night, May 19, Mrs. Porrata told reporters that she had sent her daughter, Mary Lou, to the Young Lords Office. Mrs. Porrata could produce no legal guardianship documents for Cha Cha, but they agreed to let Cha Cha keep the child. Mrs. Porrata was arrested and Cha Cha was charged with kidnapping.

During the trial, it was brought out that: (1) Cha Cha hadn't kidnapped his own child. The state's attorney had to drop the charges.

Remember Brother Malcolm

Born May 19, 1923 - Assassinated Feb. 21, 1965
Late Friday afternoon, April 13, 1968, Panthers Glenn Stafford, Robert Bay, Terry Clarke, and Richard Linyard were stopped and taken to the Oakland Police Department. They were returning from the funeral and memorial services for Bobby Hutton, who was slain by the Oakland Police Department on April 6, 1968.

The police held them at the head of the driver and asked them not to move or their lives would be blown out. As the policemen were harassing the victim, Glenn Stafford began shouting to attract the attention of the public. "If you're going to kill me, like you did Bobby Hutton, you can kill me right out here in public," a policeman then proceeded to place a can of Mace directly behind Stafford's left ear and squirted it on him. During this turmoil, the men were not told by the police why they were stopped. They were handcuffed, put into police cars, and driven around the corner where they were placed in a paddy wagon. They were then driven to the Oakland City Jail. After being booked at the jail, they were told that they were robbery suspects and that they had violated California Penal Code Section 411.

On Saturday, April 14, they were taken and driven by Robert Bay. Early Saturday morning, April 15, 1968, the victim was taken before a judge at which no identification could be made, and shortly afterward it was told that the charges of robbery would be dropped without arrest and released on bond.

Another arrest was made that Saturday, April 15, and released on bail. On April 16, 1968, Terry Clarke, Robert Bay, and Glenn Stafford were rebooked on other charges, including resisting arrest and false arrest, and released on bail on April 16.

Following are excerpts from written statements, which are part of the public record:
