## BLUE LINE THE THIN

America is doomed. This is a fact beyond dispute. Besieged by all the peoples of the world, America is being forced to withdraw. The capitalist rulers of this country. everyday see their dreams of world everyday see their dreams of world empire crumbling into dust beneath their very feet. Not only is America on the retreat all around the world but internally America is falling apart. All the lying tricks that the demogogical politicians and avaricious businessmen used in the past to keep the people divided, confused and passified are no longer working. The forces of liberation have knocked the glittering outer shell away from the American nightmare in all its hideous oppressive forms. Unable to maintain their rule by tricks and lies, the greedy capitalist rulers have turned to the last resort of all tyrants and madmen, brute force and terror. Around the world the forces of liberation are confronted by the mercenaries of empire crumbling into dust beneath world the forces of liberation are confronted by the mercenaries of U.S. Army, Air Force, and Navy. And here in the confines of decadent America the forces of liberation in the colony and oppressor country are presently being confronted by an equally victous pack of parasites. The hired killers of the risk decarriments the men in the pig departments, the men in blue. America's thin Blue Line.

## The Scum of Society

Forced into retreat, the ruling circles have scraped the bottom of the barrel to assemble this last desperate line of defense. The local state and federal pig forces who constitute this Thin Blue Line live constitute this Thin Blue Line live by murdering, maining and torturing the people. Last year a report was issued that gave a rundown on the men who make up the pig departments. According to this report, the pigs constitute all the failures and derelicts of society. Unable to find jobs in other fields, and failing in all their other attempts, these derelicts turn to all the degenerate sadistic Ku Klux Klansmen, Minutemen, perverts, gangsters and alcoholics that this sick society produces. The idea of the friendly neighborhood policeman is nothing but another illusion of the American dream that vanishes rapidly on contact with reality. Historically the pig departments throughout this country have been nothing but hired killers for the power structure. Under the clothes of the policeman's star sadistically by murdering, maiming and torof the policeman's star sadistically dressed in blue he can maim , torlitre, and kill at will with complete
impunity, and for doing it well, can
receive medals and bonuses. It's
a well known fact that the pig departments in the large cities regularly recruit southern racists who
are paid \$800.00 or more per month
to patrol the Black communities,
murdering and brutalizing Black
people--all in the name of some
so-called American law and order.

Catholic Mayor Allioto of San
Francisco, who goes to church
every Sunday, has his own special

The server unarmed. There are
many many examples of off-duty dressed in blue he can maim . tor-

blue and paid by the people. This wing of the mafia known as the wing of the mafta known as the tactical squad is used regularly to suppress the people of San Francisco at good Catholic Allioto's command, even goings so far as viciously clubbing and macing peace demonstrators inside of Crace Cathedral. The tactics of Catholic Mayor Richard Daley of Chicago's gangster pig department is well known to the people who attended and had their heads busted open and bloodied at last years attended and had their heads busted open and bloodled at last years Democratic Convention. These Irish pigs of Daley's were acting like rabid dogs attacking everything that moved. Once they were turned loose no one who wasn't in Blue was spared, Dangerous and Isolated

George Baskett was murdered by a drunken off-duty San Francisco Irish pig named O Brien. Shortly before that another off-duty pig shot and rounded his neighbor in the head one morning because he was mad at a cat on his back fence and last year the news of three off duty pigs having a shoot out and killing each other on the freeway following a traffic accident filled the newspapers. There have been repeated public outcrys to disarm off-duty pigs, but the pigs still have their guns. The pigs are not only dangerous but they are also isolated. Their actions are so repulsive to the other segments of society that no one, not even their bosses, like them or wants to be around them. No one associates with them but other pigs. As a result of this the pigs have formed a caste consciousness which makes them doubly dangerous. This small armed body exercises power far abeyond what their numbers should command. In New York last summer, the head of the 28,000 member policeman's association went command. In New York last summer, the head of the 28,000 member policeman's association went on television and publically oinked in the peoples faces and stated that they, the pigs, would no longer take orders from the politicians and city council. As pigs, he oinked, they

and no one, no matter who, was going to tell them how to police the city. At that time the pigs had machine guns mounted on the roofs of the schools, to keep the people in the poor communities, from opening the city schools to teach their own children since the racist teachers; union was on other teachers. their own children since the raciat teachers union was on strike. There was very little protest from Mayor Lindsay's office and no action was taken because he, like the other avaricious businessmen, rely on the pigs to maintain their slippery footing.

Running Amuck Without Restraint

Running Amuck Without Restraint

The Thin Blue Line is completely out of the people's control and running amuck. The pigs break every law in the land, and if and when brought to court are always found "not guilty" and are released. Last year following the railroading of our Minister of Defense, Huey P. Newton, Mayor Redding of Oakland had 2,000 Oakland pigs, most of the Highway Patrol, pigs from neighboring communities and several thousand National guard troops staked out in and around Oakland trying to spring a trap on the Panthers. Instead, following Huey's orders, the Panthers were cool and the pigs blew their minds. They had just been issued new weapons by the federal pigs and were raving mad with power. As a result the pigs turned to their bottled courage, got drunk and shot up the Panther office. The pigs were so drunk they even shot up their owr squad car. When the pigs were brought to court the case was thrown out due to "insufficient evidence", despite the fact that there were witnesses to the incident and the pigs had shot up their own squad car. The pigs are outside the law and drunk with power. In Los Angeles, Leonard Dedwiler was murdered by a big highway patrolman whose .357 magnum "accidently" went off after he stopped Dedwiler for speeding. Dedwiler was taking his pregnant wife to the hospital. The coroners verdict: justifiable homocide. In Washington, D. C. this filthy nation's capital. Last summer a Dedwier was taking his pregnant wife to the hospital. The coroners verdict; justifiable homocide. In Washington, D. C. this filthy nation's capital, last summer, a crazed pig murdered a black man in the streets for Jay walking and was never brought to court. The instances of pigs playing judge, Jury, and Executioner on "suspected" criminals are too numerous to be listed here. In most cases if the person had been found guilty in court the sentence would have been less than 6 months, but the pigs see to it that they never get to court. Over the past year the pigs in their filthy blue uniforms have attacked the people in every major city throughout America. In order to try and silence some of the protest being raised by the people, the local politicians and avarictous businessmen have and avaricious businessmen have dangled the idea of community re-view boards in front of the people. But the people are beyond such But the people are beyo tricks and they know, a

Hilliard, our Chief of Staff, has said, that such talk is nonsense: "We cannot waste time talking about community police review boards because a community review board will not act as a shield for a .357 magnum bullet, We know that the only way to stop these motherfuckers is by picking up guns and killing those mother-fuckers before they get a chance to kill us".

Thin Out The Line

Their speed and mobility make the pigs look far more numerous than they really are, There are only 200,000 pigs in the entire country and they are spread out mighty thin. There are 28,000 pigs in New York but there are about 2 million black people in Harlem, Although the pigs have cars that can reach 120 miles per hour on the freeways, a 30-06 buillet travels at 33,000 feet per second and armor plercing buillets go through armor plate. The Thin Blue Line survives by using terror tactics like Hitler's Gestapo. Whenever there's a disturbance they amass a large number of pigs on the scene and by a show of force try to scare the people into submission. By taking advantage of the terrain and using the correct tactics the people can deal with any situation. When making a raid, the pigs try to use guerrilla tactics on the people. They sneak into the community in the dead of night, usually between 3:00 - 4:00 in the morning. Like the cowards they are 10-25 of them vamp on one person or family, ransack their home and then hastily retreat back to the safety of the pig pen to return when the sun is up to olik in the faces of the people. By rigging a system of community alarms and establishing community defense teams, the people could quickly put a stop to this type of shit. All it takes is courage and determination. The days of the pigs are numbered. Every day the Thin Blue Line gets worn thinner and thinner. Last year 167 pigs were thinned out by liberation fighters and this year looks as though it will surpass last year. Like the Roman legions were smashed by the people who valued freedom above Roman values, so will the blue line be smashed. History shows that there never has been an oppressive society that the people rise like a mighty storm the Thin Blue Line will be trampled into the dust. As Huey P. Newton teaches us, "The oppressor must be allowed no peace by day or night, he must be harassed until his doom".
